ECHO

Naturals Collection

ECHO

Naturals Collection

Echoes Beyond Nature – Innovative surface solutions that elevate the façades of raw, natural materials.

Each decor in the Naturals Collection echoes the earth's enduring materials – from rich minerals to volcanic stones – refined for modern architectural expression.

Urban Modernity

A rough and refined concrete style for architectural lines.

These concrete decors elevate building façades with a luxurious aesthetic. Their raw surfaces are refined by a sophisticated harmony between bold architectural expression and timeless elegance.

Grey concrete tones underscore a fusion of aesthetic elegance

Mineral Concrete

Polished Opulence

A graceful, classic design creates a bright and serene atmosphere that enhances well-being.

Drawing from earthy tones like white, ivory, and beige, the collection combines elegant simplicity with modern style through subtle veining and soft mineral textures.

An earthy palette brings serenity and refined luxury

Matt-Rock

A sandy hue living
in harmony with
nature

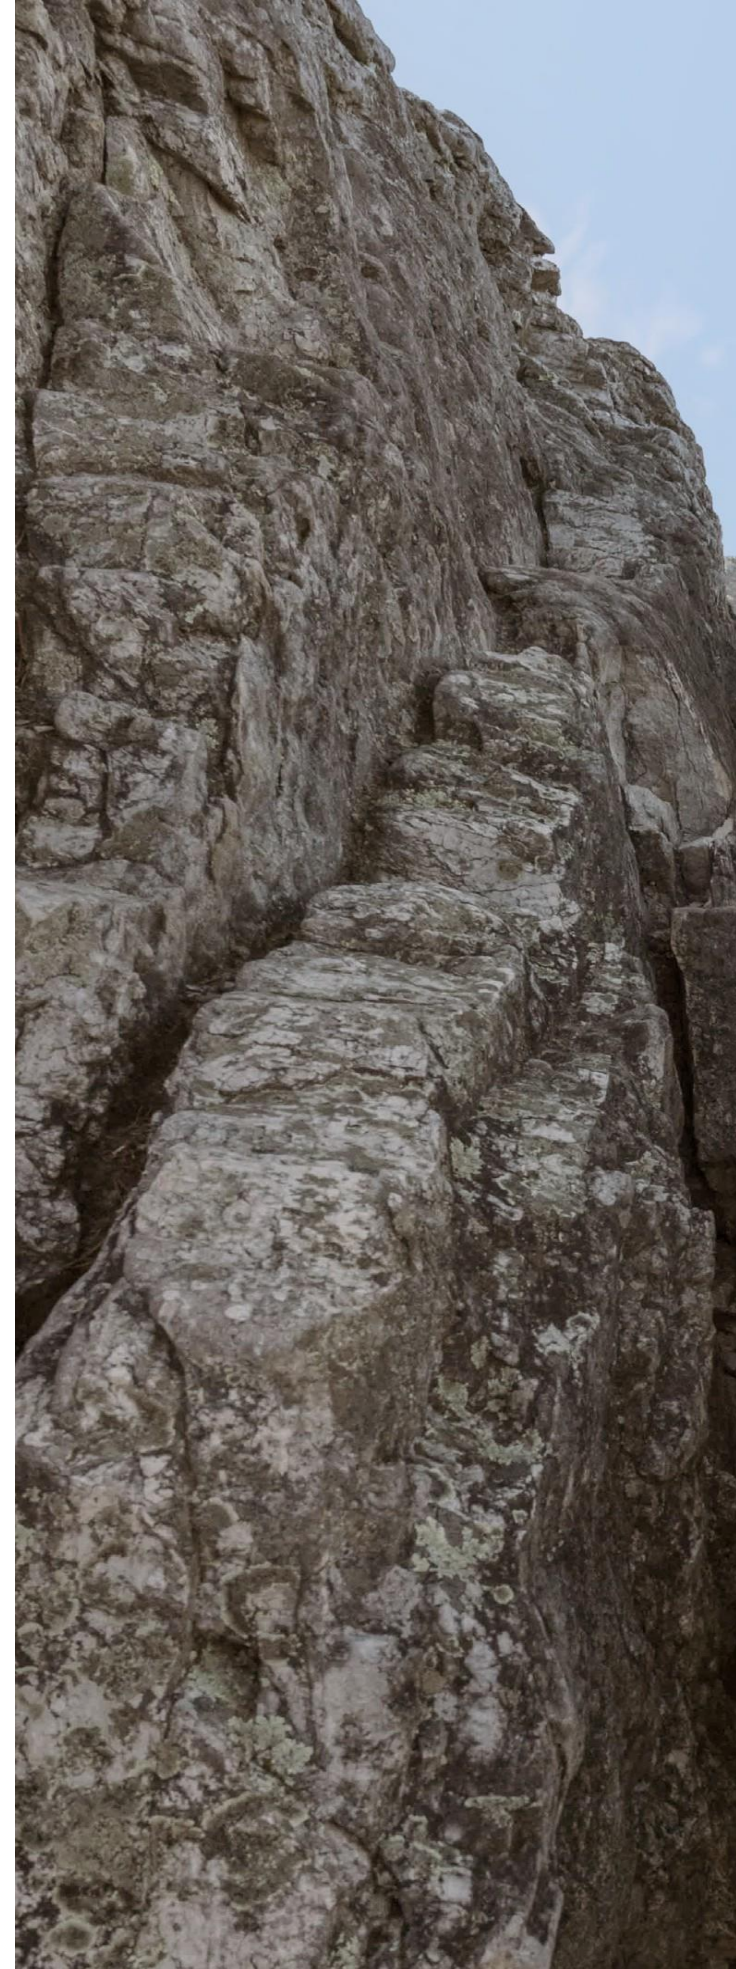

NA22
Tivoli Travertine

Earth's Energy

An evocation of volcanic power meets the lushness of tropical vegetation, creating a dramatic contrast.

Rich textures and crystalline details mirror the dramatic cooling of magma - a statement of boldness, luxury, and enduring style.

Volcanic hues channel nature's dramatic energy
